How to Use These Scripts

Each of the 50 scripts follows the same plug-and-play format:

HOOK — the exact first line. Say it in the first 3 seconds while the product is already on screen. The hook decides whether anyone keeps watching.

SAY THIS — the spoken script, written for a 25–35 second video. Replace the bracketed parts [like this] with your product's details.

ON-SCREEN TEXT — big captions to burn into the video. Most viewers watch with sound off at first; the text carries the message.

CALL TO ACTION — the closing line that sends viewers to the shopping-bag icon.

Golden rules: film in vertical 9:16, show the product in the first second, keep the energy high, and post 1–3 videos a day. One script = one video. Don't overthink — film it.
